Who we are

Gonzena Hydrocarbons and Energy, incorporated in Nigeria as a limited liability is strategically setup and positioned to engage in oil and natural gas exploration, development, storage and production, as well as supply, trade and retail of gas, fuels and chemical products.

Our forte is in the storage, processing of crude oil and other oil-based bi-products to produce fuels, lubricants and other chemical products that are supplied to wholesalers through our retail network of distributors. Gonzena Hydrocarbons and Energy also participates in structural/facility engineering, oilfield services (offshore and onshore) through technologically-advanced processes. By so doing we have established **GONZENA**: a mega energy project located in the oil rich Niger-Delta area of the Nigeria.

In Gonzena we maintain impeccable integrity in business transactions, contributing positively to the nations growth and development, while excelling in all our operations; evolving competitive solutions, coupled with the development of our people, technical know-how and skills, thus driving our company in creating sustainable values.

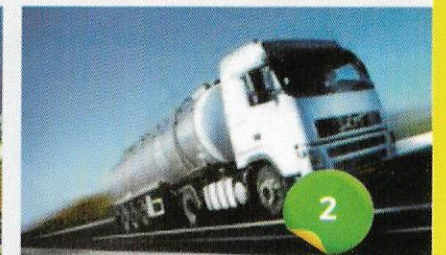

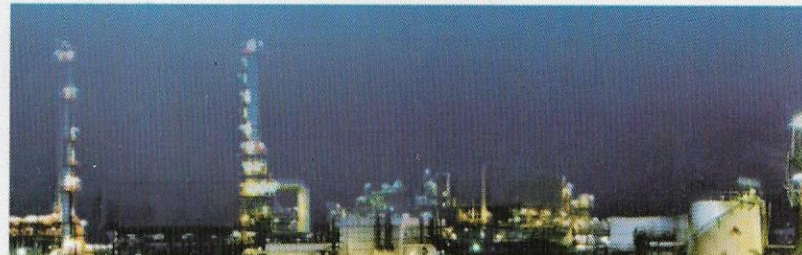

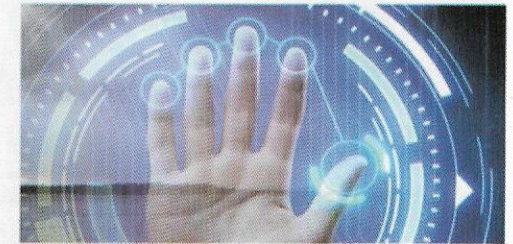

What we do

Our portfolio comprise of storage of petroleum products, distribution and marketing, with interests in developing onshore and offshore activities for upstream, midstream and downstream capabilities in the coastal region of Niger Delta.

As an emerging oil and gas company our focus is more to downstream and midstream profile, while maintaining parity in other areas of our operations in the industry which include but are not limited to the following: Storage, transportation, distribution, retailing, refining, production of chemicals and other oil related bi-products. Indeed we offer great opportunities for indigenous oil and gas professionals to acquire knowledge and resources.

Our strategy is to tactically grow our bottomline and assets through the development of our current portfolio, acquiring new assets through a judicious and effective expansion strategy.

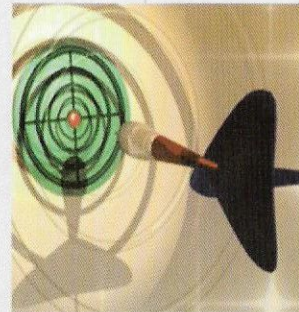

We commit to meeting our timely targets, create lasting value in third party contracts that positively impact the nations growth, as oil and gas is the mainstay of the Nigerian economy.

Mission Statement

To establish a continental presence and set industry benchmark for oil and gas storage, distribution, retailing, while expanding to refining and exploration by:

- * Using best practice, quality and ethical standards
- * Leveraging on our experience and expertise to enhance value to stakeholders
- * Continuously improving our work standard to provide maximum customer satisfaction
- * Growing our technological proficiencies

Our Projection

To be one of Nigeria's leading energy corporations that gets it right through hard work, innovations, integrity and hi-tech systems, positioned to bring unrivalled value, and satisfaction to our retail and wholesale customers.

Our Products

Gonzena Hydrocarbons and Energy provides a plethora of petroleum products, of superior quality and produced to the specific requirements of retail and industrial customers. They include;

▶ PREMIUM MOTOR SPIRITS (PMS/ PETROL)

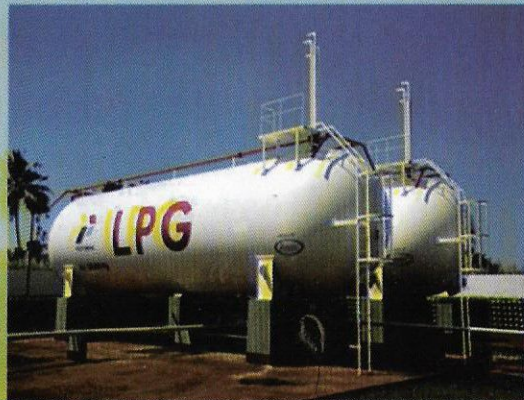

▶ KEROSENE. (Jet-fuel), referred to as Aviation Turbine Kerosene (ATK).

▶ AUTOMOTIVE GAS OIL (AGO).

▶ LIQUEFIED PETROLEUM GAS [LPG] COOKING GAS.

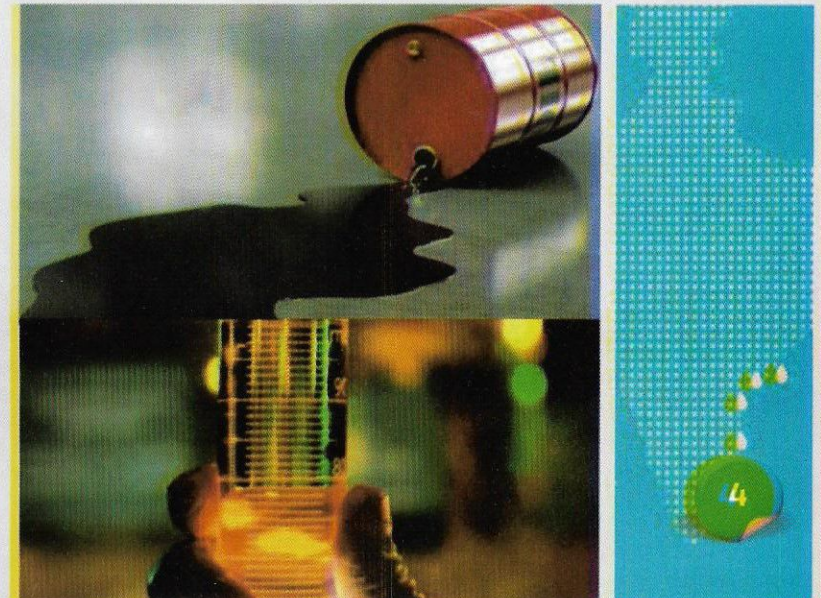

**CHEMICALS.
LUBRICANTS.**

Our Services

- **HAULAGE**
- **DISTRIBUTION (ONSHORE AND OFFSHORE)**
- **BULK/RETAIL SALES**
- **COLLATERAL MANAGEMENT**
- **PRODUCT LAB ANALYSIS**

With a team of knowledgeable and well trained personnel in oil and gas, we have developed a strong track record of top-shelf service delivery.

Health & Safety

At Gonzena Hydrocarbons & Energy, we believe in the good health and safety of our staffs', contractors and other external parties, pertaining to our internal and external operations.

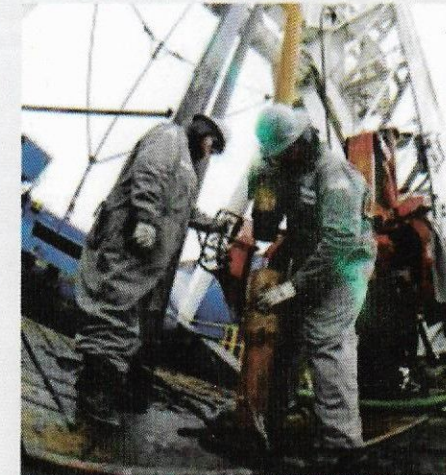

Environmental protection and respect for the communities we operate in, are an integral part of our safety, health and community relations policy in line with our corporate social responsibility (CSR) culture and International Best Practice guidelines obtainable in the oil and gas industry.

We are committed to the health and safety of our employees, as we periodically request to know the details of our HSE performance in relation to this and other issues.

To hit the target goals and aspiration regarding Health, Safety and the Environment (HSE) for the company, we influence all our employees to make personal commitment to conduct themselves safely, and care for others.

AMONGST OUR EXPECTATIONS ARE:

1. Institute protective measures and the required control of Health and Safety risks arising from our operational activities;
2. Dialogue with all stakeholders on matters bordering on their health and safety;
3. Keep a safe plant, equipment, and ensure handling of substances with utmost care;
4. Following safe evacuation procedures in emergencies fires, and other incidents;
5. Instruct and supervise employees;
6. Harmonise Health, Safety and Environmental matters in all job areas;
7. Making sure all employees are fully trained and have the forte to perform their tasks;
8. Forestall accidents and operations-related health risk;
9. Implement safe and healthy working conditions at all times;
10. Examine and adjust this policy when necessary periodically.

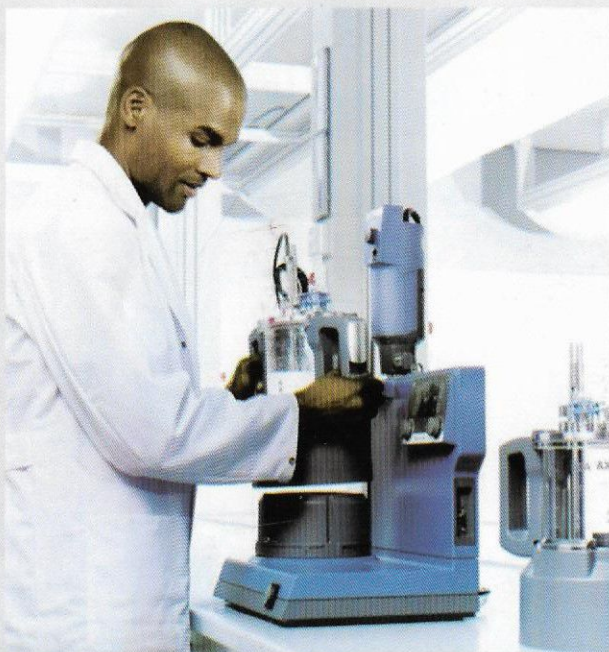

Our Quality Policy

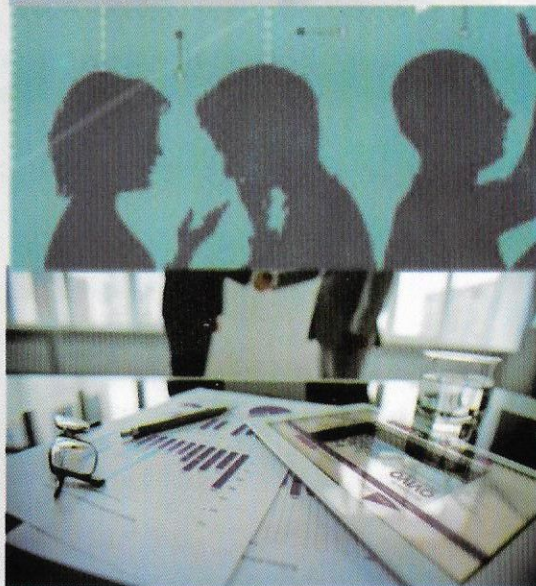

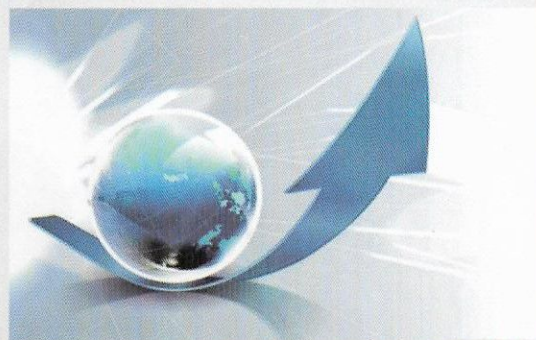

As a company we strive to attain and maintain a position of quality, leadership and timely delivery by satisfying customer/clients needs through continuous improvements, service and productivity."

Gonzena Hydrocarbons and Energy has setup an effective inspection capabilities, utilizing up-to-date operations improvement instruments.

Process analysis and evaluation is an essential part of our Quality Assurance implementation policy, with the most industry standard test tools and procedures.

Gonzena Hydrocarbons & Energy's commitment to "Quality" is reflected in our being licensed by the Directorate of Petroleum Resources (DPR) to construct and operate an ultra-modern tank farm facility with ancillary services.

Our Business Policy

Gonzena Hydrocarbons & Energy is a purpose driven energy corporation with a visionary mind set to run a model company that will outlive its proponents.

Our Business Principles is premised on our core values, this is a clear indication of how we influence trust, receptiveness, teamwork, professionalism, and we are adept at what we do.
